TODAY we are in the midst of a great war that is taxing the sinews of the nation. Many of us have been called upon to sacrifice much in our country's best interests. All of us, no matter how small or great our contribution, have been glad to give what was demanded.

Shortages in varying degree have developed in every line of consumer goods — and china and crystal are no exception. The flow from the Continent has been stopped. A small trickle still gets through from England, but in desultory fashion. Domestic factories are now largely geared to government production.

Plummer, Ltd., like everybody else, feels the pinch. A number of our fine lines of china and crystal are no longer complete. However, due to the plentiful stocks we have had to carry for our two large New York shops, we still have a wide assortment of most patterns in fine china and crystal.

You may select from this Gift Book the same fine wares you would find in our cases, and on our shelves and tables. Plummer, Ltd. is recognized as having the largest stock of fine china and crystal in the country — yet our quality, variety and smartness cost you nothing extra.

Whatever you select will be shipped promptly and packed safely and beautifully. And the name PLUMMER, LTD. on the box adds prestige to the beauty and quality of the gift.
